BRAVIA

CINEMA IS COMING HOME

The truest cinema experience at home, powered by filmmaking technology

“ Having a technology that can really adapt to, and to create that cinema experience at home is really what any creator would want. ”

MICHAEL LASKER, VFX Supervisor
on Spider-Man: Across the Spider-Verse

“ I was very impressed. I thought that the dialog was very clear. You could hear all the nuances of every little detail that we had placed in there. You could hear really well. It wasn't getting muffled, it wasn't getting lost. It was all there. The subs were amazing. ”

ERIN OAKLEY, Supervising Sound Editor
on Gran Turismo: Based on a True Story

100+ YEARS
FILM EXPERIENCE

60+ YEARS
TV INNOVATION

Cinematic Picture & Sound

With over 60 years of TV innovation coupled with expertise in every aspect of filmmaking, Sony's TVs replicate the movie theatre experience right in your home, by delivering picture and sound quality beyond what conventional TVs can.

Spectacular cinematic picture and sound performance

YOUR IDEAL DISPLAY

Mini LED

Sony's Mini LED TVs deliver peak brightness and high contrast, even in sunlit rooms. Placed beside a window or in a bright space, it reduces glare for uninterrupted, true-to-life viewing.

OLED (QD-OLED)

In darkness, every detail comes to life. Sony's OLED TVs deliver pure blacks and vibrant colours with highest contrast, making every scene feel truly immersive.

MADE FOR MOVIES

IMAX

PURE STREAM™

Personalised entertainment, streaming and more at your fingertips

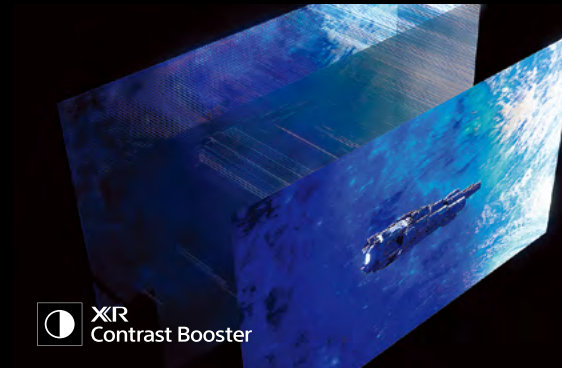

Google TV™ brings together movies and other content from across your apps and organises them just for you. Explore a vast library of movies on SONY PICTURES CORE. Paired with BRAVIA technology, Pure Stream, and IMAX® Enhanced, everything you watch is delivered with stunning visuals and expressive sound quality.^{4 5 6 7}

Unmatched realism with XR Processor and AI

Powered by AI, our XR Processor analyses and enhances hundreds of thousands of details every second, delivering breathtaking clarity and natural, true-to-life visuals.⁸

CINEMATIC PICTURE

XR
Contrast Booster

Every scene brighter with brilliant colour and contrast

XR Contrast Booster precisely controls light, boosting bright areas while preserving deep blacks without losing detail. This results in a more realistic, lifelike picture.

XR
Backlight Master Drive

Access professional monitor core technology at home

Backlight control core technology, similar to that found on Sony's professional monitors, brings sublime depth and detail to the movies you watch at home.⁹

The background of the advertisement is a modern living room with a large Sony BRAVIA TV. The TV screen shows a warrior in armor standing in a fiery, orange-hued landscape. A large, translucent dragon with glowing red eyes and orange scales is superimposed over the scene, appearing to breathe fire. The room features a grey sectional sofa, a low wooden coffee table with metal legs, and several Sony speakers. Blue, ethereal sound waves emanate from the speakers and the TV, creating a sense of immersion. The overall lighting is warm, with the fire from the TV screen and the dragon's breath providing the primary light source.

SONY

Cinema is coming home

Unmatched immersion in sight and sound

100+ YEARS
FILM EXPERIENCE

60+ YEARS
TV INNOVATION

BRAVIA

With BRAVIA TV, every scene feels real. Vivid colours, deep contrast, and lifelike motion pull you into the action, while our powerful BRAVIA Theatre home theatre systems make you feel every pulse-pounding moment.

Sony's BRAVIA home entertainment collection works together to create the truest, most immersive cinematic experience—right in the comfort of your home.
