

SONY

MERDEKA SPECIAL

Let Sony bring everyone together!

1st August - 2nd October 2022

SONY

BRAVIA XR

**BRAVIA
CORE**

CES® 2022
Innovation
Awards,
award to
BRAVIA CORE¹

BRAVIA CORE is exclusively available on all 2022 BRAVIA XR™ TVs.

Bring the cinematic experience home^{2 3}

Redeem
5 movies⁴

PURESTREAM™

Highest
streaming quality

**IMAX
ENHANCED**

Largest collection of
IMAX® Enhanced movies

STUDIOACCESS

Get the inside story of
your favourite movies

Enjoy 1 year of unlimited movie streaming

Watch in Pure Stream™, the highest in streaming picture quality

BRAVIA CORE features Pure Stream™ which can stream HDR movies at up to 80Mbps - similar to 4K UHD Blu-ray®, on a wide range of content. This means significantly more detail, colour and contrast than conventional 15-25Mbps streaming content.⁹

Enjoy the largest available collection of IMAX® Enhanced movies

This BRAVIA XR™ TV with IMAX® Enhanced is certified by IMAX and DTS® to have met the rigorous standards needed to get the best possible IMAX movie experience from BRAVIA CORE movies. BRAVIA CORE Calibrated mode automatically optimises picture settings when watching IMAX Enhanced movies.

¹ The CES Innovation Awards are based upon descriptive materials submitted to the judges. CTA did not verify the accuracy of any submission or of any claims made and did not test the item to which the award was given. ² BRAVIA CORE is available on select BRAVIA XR™ TV models. BRAVIA CORE's user interface design, features, specifications and content may vary by territory. BRAVIA CORE may not be available (in part or in whole) in all territories. Please check with your local Sony Store, Sony Authorised Dealer and/or online at <https://www.sony-asia.com/electronics/bravia-core> for details. ³ MARVEL and all related character names: © and ™ 2022 MARVEL. Spider-Man: No Way Home copyright: © 2022 CTMG. All Rights Reserved. ⁴ Purchase an eligible TV and register for BRAVIA CORE™ by February 23, 2026 to be eligible for promotion offers. Available movies subject to change. Terms and conditions apply, for more details see <https://www.sony.net/bravia-core>. © 2022 Layout and Design Sony Pictures Home Entertainment Inc. All Rights Reserved. ⁵ Model availability differs by region. Some features are not supported on X80K, X85K.

360 SPATIAL SOUND MAPPING

Feel sound from every direction and distance, even beyond the boundaries of your room with Sony's revolutionary 360 Spatial Sound Mapping technology.

360 Spatial Sound Mapping uses Sony's original distance measurement technology to calculate the distance between speakers and from the speakers to the ceiling, before combining it with physical sound field reproduction technology.

The system uses built-in microphones to measure the relative positions of each speaker and reproduce sound wave fronts from up to twelve phantom speakers (simulated sound sources) that are assumed to exist somewhere outside of the physical speakers. As the simulated speakers exist beyond the actual speakers, they can make you feel as if you are in an extremely wide and expansive space that seems to extend beyond the room.

Best with Sony TVs

When paired with compatible BRAVIA TVs, the HT-A9 offers the ultimate immersive audio-visual experience with Sony's best picture and sound quality.

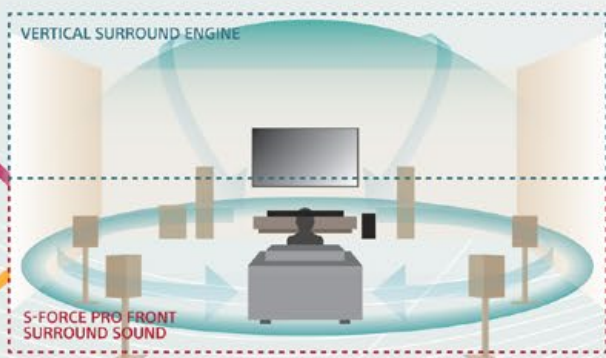

With Acoustic Centre Sync, the TV speaker plays the centre channel role in your Home Theatre System and part of the 360 Spatial Sound Mapping setup. This enables sound to precisely match what's on the screen for a truly immersive experience.

**when paired with compatible BRAVIA TVs*

Re-creating the dolby atmos® experience with Sony's proprietary technologies

With development of the unique Digital Signal Processing technologies, the Dolby Atmos® sound field can be produced in your own home with just a single slim sound bar and subwoofer.

VERTICAL SURROUND ENGINE

Vertical Surround Engine* - Sony's latest surround technology lets you enjoy the thrill of Dolby Atmos® from a single slim unit.

S-FORCE PRO FRONT SURROUND

S-Force PRO Front Surround with wavefront technology delivers a wide horizontal surround sound field even without rear speakers.

A new frontier of surround sound
